HIGHLIGHTS INSIDE

MISSION: EDUCATION FOR ALL

EDITORIAL DESK

After the ninth successful release and an overwhelming response, we are glad to release the 10th issue of 'DISHA', the newsletter of Guruji Education Foundation. We hope you enjoy reading the newsletter. We welcome your comments and suggestions. Please let us know if you would like to contribute to DISHA in any way.

We thank Mr Abhay Joshi for reviewing the contents. Ms Richa Koparday for giving a new and refreshing outlook to the newsletter. Mohan Sir for coordinating the release.

Disha Team (Prachi, Sharvari, Anjali, and Editor: Kajal Sonawane).

Contact: info@gurujifoundation.in

IN CONVERSATION WITH SAILI BAKARE

Our Beloved Alumnus

1: Saili, how were you introduced to GEF?

Saili: I came to know about GEF from Mr Pradeep Waychal. His kind words encouraged me, he said, “This is critical for your holistic development, don't miss it just because of money.” I then, became a part of GEF.

2: How was your journey from schooling till now? Did you face obstacles along the way and how did you overcome them?

Saili: Travel was always an obstacle in the school-to-work phase of my life. My home town is Vadgaon Maval. There were no semi-English medium schools then and hence I went to an English medium school in Talegaon Dabhade, a town that was around 3.5 kms away.

My mother, based on her own experience, had decided that her children would study in English medium school to avert the difficulties she faced by switching from Marathi medium to English after 10th. We (my sister and I) started using 6-seater public transport. For further studies (after SSC), most of the students from my village used to go to Pune, which is about 45 km away. If you missed a train, the next was after an hour. That was a big change for me. My 11th and 12th grade Jr. College was at Shivajinagar.

To reduce travel time, we chose a college that was right next to the Shivajinagar railway station. I attended Jr. College in the morning and tuition classes for HSC in the Chinchwad area which was about 30 min by train from my house during the evening time. I utilized my evening travel time by studying on the train.

After HSC, I thought of doing B.Sc followed by M.Sc because we couldn't afford engineering fees. But, when we found out about a scholarship that reduced the fees by 50% we thought of applying to engineering colleges.

I was firm that I would apply to engineering colleges that are near my house i.e. in the Akurdi area, near the railway station. Thankfully I found a new friend who introduced me to the concept of autonomous colleges in Maharashtra. Thanks to this friend, I applied to autonomous colleges and was the last girl to get into VIT, Pune, one of the top colleges. It was in the Bibwewadi area of Pune, which meant that in addition to the one-hour travel by train there was another 45 to 55 minutes of bus (plus traffic delay) travel to reach my college.

In my second year of engineering, the college started operating in shifts – morning and afternoon – which aligned well with the train times. However, in the third year, I remember they changed the timings which did not align well with the train times. I was put in the morning shift during winter. For the very first class of that semester, I missed the first 15 min and realized that I could not understand most of the things being taught. This meant that I needed to take an earlier train (early by an hour) in order not to miss those first 15 mins of class. By taking the earlier train, I reached the college when literally no one was around, not even the security person who opened the main gates of the buildings. I remember climbing over the stairs in order to get inside the building to save myself from the cold weather outside. It was fun doing that! This made me realize that it took only 1.5 hours one way instead of 2 hours if I travelled during non-peak hours. I started saving one hour of my total travel time every day by going to college very early in the morning and coming back home very late at night. I did studies and other co-curricular activities during the entire day. Even though I got the last seat in the college, I graduated as the topper of the class. Besides, I led different co-curricular and extra-curricular activities in the college. I never felt travel was an obstacle then. Today when I look back, I wonder how I must have done all of that travel. It all seems like a dream.

3: What are your personal and professional achievements?

Saili: I have acrophobia (fear of heights) and wanted to overcome it. I saw the film 'Zindagi Na Milegi Dobara' and was inspired to overcome my fear by deciding to go skydiving. It was such an amazing experience and it also helped me to win over that fear. I believe that was my real personal achievement – superior to all my academic achievements.

Professionally, I cherish securing campus placement at Whirlpool. That is quite an interesting story. Actually, Whirlpool did not shortlist me in the aptitude test round. I was disappointed, especially since I had performed well in the test. I persisted and spoke to the college placement officer, who directed me to the company HR, a rare occurrence of the placement asking us to talk with the company officials. Which I did. I was not very optimistic about the company official's response and hence was chit-chatting with my friends in the college canteen. Just then a friend came running saying "They are looking for you, you have an interview now". I was shocked and happy at the same time. Finally, Whirlpool selected only two students from our college and I was one of them. When I look back, I feel that my persistence and confidence played a very significant role in my first professional achievement.

4: How did you utilize the daily 4 hours of commute to college?

Saili: I used that time to either study or rejuvenate myself. Sometimes, I read books or sometimes, notes and to complete my assignments/journals. The other times, when I felt tired, I listened to Va. Pu. Kale's Kathakathan or just slept. I can sleep anywhere, in any circumstances! I think my college commute has given me this unusual reward.

5: How do you feel about being part of GEF and how would your life be without it?

Saili: I feel blessed. When I was a student, I received support and motivation. And today, I am able to do the same to other deserving youngsters and pay back to society. It gives me and my husband, Sagar, immense happiness doing that.

6: Who is your Role Model?

Saili: My Mother! Our family did have tough times. Despite that, it was she who resolved to provide me and my sister with good education. She faced many difficulties but never complained about them. She is a sweet, genuine, and selfless person. She always thinks about others first. I can go on talking about her virtues.

7: What are your hobbies?

Saili: When I was young, I used to dance in all the cultural festivals of my school. While in school, I learned Bharatnatyam for almost four years. Since I have come to the US, household chores take most of the time after studies in earlier years and now office hours. Now, on weekends I go hiking. And, during the lockdown, I have started learning to play guitar.

8: You were working at Whirlpool. And then you moved to the US for an MS (Master of Science). Can you elaborate on that?

Saili: I was kind of settled in Whirlpool. MS was not at all in the plans. And, then I saw some of my friends giving the GRE Exam. So, to test my potential and use my commute time, I attempted the GRE. By then, I had developed a group of my 'train friends'. They helped me to prepare for it. My results were okay – 310/340. To test my potential further, I decided to apply to a few universities. And to my surprise, I got admission to two universities. So, I said to myself I have proved myself and decided to stop. But then my mother asked me, “If we had 50L/60L savings, would you have thought of going to the US for MS?”

I immediately said: "If we had that kind of money in savings, I definitely would have". My mother realized that our financial situation is coming in the way of my progress.

Fortunately, Mr. Pradeep Waychal came across a foundation (Paras Education Foundation) located in Mumbai that helps get education loan from a bank in the US and I flew to the US for MS.

(Note: The US bank requires a financial guarantee from a US citizen or a green card holder to approve the loan and thankfully one of our family friends from Vadgaon who was working in the US obliged to be one for me).

9: Tell us about your MS journey. About the scholarship and the university.

Saili: The loan from US Bank helped me tremendously. It was supposed to help me with the first year of MS only. However, I lived frugally during the first year, got a campus job in the second semester and a wellpaying internship in the summer at a company, A10 Networks located in the Bay area of California. The company offered me a full-time job after the internship. So, I didn't have to apply for a loan in the second year and could finish my MS 6 months sooner (in 18 months overall) and I joined A10 Networks immediately after that. So, my total MS expenses were far less than what I had expected.

10: Tell us about your current employer, Microsoft. How you got into Microsoft and how much time did you take to prepare? How 's the work environment and other things?

Saili: I thank my husband for motivating me to take a shot at Microsoft. First, I had to get into the groove of studying. I was not motivated to start studying for an interview. I knew the benefits of being with likeminded people. So, I got in touch with my colleagues and friends who were also appearing for interviews. To brush up on algorithms and data structures, I used leetcode (equivalent of geeksforgeeks in India) website which has the topic-wise theory and coding questions, mostly asked interview questions, etc. The premium subscription for leetcode also provides a list of top n coding questions for specific companies. After my regular office hours, I used to prepare 2 to 4 coding questions a day. I spent 3 to 4 months on the preparation and had completed around 150 to 160 questions in that time frame. I appeared for Amazon, Tesla, and a couple of other start-ups interviews before Microsoft, where I was interviewed for two different orgs at Microsoft. The interview process, therefore, went on for 2 days consisting of 8 interviews. I was very happy about getting selected for both the teams and eventually I chose one of them. I must tell you that I had stopped all my social activities during the interview preparation. When at A10, our entire engineering team (usually the largest team in any company) comprised 250 engineers and when I joined Microsoft, I was one of the 250 people joining Microsoft on that specific Monday.

I was awestruck to realize how big Microsoft is. My current team at Microsoft is made up of the most knowledgeable and super helpful people I know. In the past, I didn't really know about the impact of the work I did. But here at Microsoft, I can totally see the scale at which I make an impact with the work I do. The way Microsoft treats every single employee is really commendable. Apart from financial wellbeing, they also care about their physical and mental well-being. For example, this year because of the pandemic we were given 5 well-being days off in addition to the normal vacation days (which are also more as compared to other companies). The extent to which the company goes to make every single employee valued is something that I hadn't experienced in the past. The culture at Microsoft is really good and I absolutely love working at Microsoft.

11: Any advice to students?

Saili: My experience has taught me the following;

- Do not get comfortable with any situation. Always push yourself.
- Stay with like-minded people. Such as if you want to appear for an interview, staying with people who are also preparing will help you to keep motivated.
- Always give your 100% and leave the rest to the Almighty.
- Follow your instincts.

12. What are your future plans?

Saili: Most of the major things (getting into VIT, Pune, or doing MS in the US) in my life have happened without planning for them. I am sure something exciting awaits me in the future. My husband, Sagar, and I are planning to return to India a few years down the line to start our enterprise. It is our dream to do something for our country.

'ध्यास उत्कर्षाचा'
मा.श्री. अच्युत गोडबोले यांच्या सोबत संवाद

कार्यक्रमाची सुरुवात झाली स्वागताने. आपल्या ह्या फाउंडेशनच्या परिवारातून आपल्या अनेक ताई दादांनी कष्ट करून यश संपादन केले. बड्या मोठ्या कंपन्यांमध्ये आता ते काम करत आहेत. त्यांची ओळख करून दिल्यावर श्रेयाने आपले गुरुजी फाउंडेशन कोणते प्रकल्प राबवते, फाउंडेशनची तत्वे काय आहेत, फाउंडेशनचे केंद्र महाराष्ट्र सोडून कोणत्या कोणत्या भागात आहेत हे तिने सांगितले. त्याचसोबत आम्ही सारे गुरुजी एज्युकेशन फाउंडेशन परिवारातील सदस्य ज्या दिवसाची वाट बघत असतो, ज्या दिवशी आम्ही सगळे वर्षातून एकदा संपूर्ण परिवार एकत्र असतो तो दिवस म्हणजे वार्षिक समारोह, जो आता कोरोना महामारीमुळे घेणे शक्य झाले नाही. त्या दिवसाची आठवण श्रेयाने करून दिली. प्रतिभाने ' दातृत्वाचे तेज; वक्तृत्वाचे ओज; ज्यांच्या व्यक्तिमत्वाची वेगळीच चकाकी, सत्कार्याची ओढ; चांगुलपणाची जोड; ज्यांच्या कर्तृत्वाची वेगळीच लकाकी...' असे चारोळी गात प्रमुख पाहुण्यांचे स्वागत केले. सुंदर चारोळी नंतर आपल्या मधुर आवाजात प्रियंका हिने स्वागतगीत गायले आणि कार्यक्रमाची प्रसन्न सुरुवात करून दिली.

प्रमुख पाहुण्यांची ओळख करून देण्याचे काम रवींद्र ह्याने केले - इयत्ता पहिली ते महाविद्यालयापर्यंत नेहमीच सर्वोच्च स्थान गाठणारे, आयआयटी मधून केमिकल इंजिनिअरिंगमध्ये पदवी प्राप्त करणारे, सॉफ्टवेअर क्षेत्रातील पटणी, सिंटेल्, एल अँड टी, अपार, दिशा यांसारख्या बड्या कंपन्यांमध्ये सर्वोच्च पद सांभाळणारे, पंतप्रधानांच्या हातून दोन वेळा उद्योगरत्न पुरस्कार प्राप्त झालेले, ज्यांच्या साहित्याला राज्य शासनातर्फे गौरविण्यात आले, असे श्रीमान. अच्युत गोडबोले सर

गोडबोले सरांनी 'ध्यास उत्कर्षाचा' या आपल्या गुरुजी एज्युकेशन फाउंडेशनच्या कार्यक्रमात आपल्या परिवारासोबत गप्पा मारल्या, उपस्थित सर्वांना मोलाचे मार्गदर्शन केले, जिद्द आणि सचोटीने नियमित काम कसे करावे हे सांगितले. त्यांनी त्यांची यशाची व्याख्या सर्वांना सांगितली. त्यांच्या सोबत झालेल्या प्रश्न-उत्तराच्या या मुलाखतीत त्यांनी जो संदेश विद्यार्थ्यांना दिला, तो नक्की त्या विद्यार्थ्यांच्या आयुष्यात नवे तेज आणेल याची खात्री वाटते.

तर, प्रश्न-उत्तरांच्या कार्यक्रमाला सुरुवात झाली. मी त्यांना पहिला प्रश्न असा विचारला कि, तुमचे प्राथमिक शिक्षण मराठी मधून झाले आणि त्यानंतर तुम्ही अख्ख जग जिंकून दाखवले. महाराष्ट्राची मराठी ते म्यानहटन मधील इंग्रजी हा प्रवास तुम्ही कसा साधला? त्यांनी हसत हसत उत्तर दिले, ' नाही गं, मी काही जग वगैरे जिंकले असं काही नाही. जग जिंकायला खूप अवकाश आहे. मी माझ्या वाटेत जे येत गेलं तसं करत गेलो. ' पुढे त्यांच्या शिक्षणाबद्दल बोलताना ते बोलू लागले ' माझे बालपण सोलापुरात गेले. प्राथमिक शिक्षण पूर्ण केले, तेव्हा बोर्डात मी १६वा आलो होतो. गणितात मी पाहिली ते आयआयटी पर्यंत एकही गुण गमावला नाही. मला एवढे चांगले गुण नेहमी प्राप्त व्हायचे कारण मला कधीच केवळ परिक्षेकरता, गुण मिळवण्याकरिता अभ्यास करायला आवडायचा नाही. मी एकच गणित तीन वेगवेगळ्या प्रकारे सोडवायचा प्रयत्न करायचो, असे त्यांनी सांगितले.

यशाची व्याख्या सांगत ते पुढे म्हणाले, 'प्रत्येक विषयावर प्रेम करा, गुण येतील मागून चालत. यशाची व्याख्या म्हणजे, आपल्याला जे काही करायला आवडते ते करणे. सातत्याने विद्यार्थी राहणे, त्यामुळे नवीन गोष्टी शिकण्याची मनात इच्छा निर्माण होते. स्वतःचा विकास करत असताना इतरांबद्दल कळकळ आणि माणुसकी ठेवा, हे देखील त्यांनी सांगितले. हीच माझी यशाची व्याख्या आहे. आणि मी माझ्या आयुष्यात ह्याच मार्गाचा अवलंब केला.'

या सगळ्या यशाच्या मार्गावर चालताना कित्येक अडथळे आले. कठीण काळात मी १२५ रुपये महिना पगाराचा जॉब केला. वर्षभरात मी १३ घरं बदलली. कष्ट केले त्यानंतर मी आयटी क्षेत्रात शिरलो आणि २३ वर्षे मी सीईओ पदाचा कार्यभार सांभाळला. हे सारे ठरवून केले नाही. जे समोर येत गेले तसा मी करत गेलो, हेच आयुष्य आहे.' असे ते म्हणाले. "एक्सेलेंन्सचा ध्यास मनात ठेवा जे काही करायचे असेल ते उत्कृष्टरित्या करा." ह्या त्यांच्या वाक्याने विद्यार्थ्यांच्या मनात नक्कीच उभारी भरून दिली असणार, हे निश्चित. पुढे ते बोलले, खेळ आयुष्यात खूप महत्वाचे आहेत. खेळाकडे फक्त आरोग्याच्या दृष्टीने न बघता मानसिक दृष्ट्या बघायला पाहिजे. खेळ माणसाला जय-पराजयाकडे चांगल्याप्रकारे बघायला शिकवतो. पराजय स्वीकारणे हे खेळच तर आपल्याला शिकवतो. आज बघायला गेले तर ४०-५०% शाळांमध्ये मुलांना खेळायला मैदानचं नाहीत. कसे घडणार पुढच्या पिढीतून तेंडुलकर आणि गावस्कर?' अशी हळहळ त्यांनी बोलून दाखवली.

पुढे मी त्यांना न्यूनगंडाचा प्रश्न विचारला. सोलापूरातून मुंबई आयआयटीच्या विश्वात आल्यावर त्यांना कोणत्या गोष्टींना समोरे जावे लागले? त्यावर ते बोलले 'मला आयआयटीमध्ये प्रवेश घेतल्यावर इंग्रजीचा प्रचंड न्यूनगंड आला. एकाने माझा त्यावरून अपमान देखील केला होता, त्याच्या त्या अपमानाला मी चांगल्या दृष्टीने पाहिले. माझ्यात काही कमी आहे हे ऐकून मला प्रचंड राग यायचा, म्हणून मी पुढचे १० महिने फक्त इंग्रजीचा अभ्यास केला. नुसता रट्टा मारून न्हवे तर इंग्रजीचे सगळे नियम कोळून प्यायलो.' ह्या साऱ्याचे तात्पर्य हेच की, न्यूनगंड सतत घेऊन न बसता, तो संपवून टाकायचा. त्यासाठी मेहनत करण्याची धमक आपल्यात असली पाहिजे.

कार्यक्रमाची सांगता करण्याची वेळ आली. सरांना संगीताचे ज्ञान आहे, हे आम्ही जाणून होतो. त्यामुळे आम्ही सरांना एखादे गाणे गावून कार्यक्रमाची सांगता करावी अशी विनंती केली. त्या विनंतीचा मान राखून आवाज बसलेला असताना देखील सरांनी 'मल्हार राग' गायला. त्यांच्या तो आवाज ऐकून , त्यांची ती कला पाहून मीटिंगच्या चॅट बॉक्स मध्ये त्यांची वाह वाह! करणारा कमेंटचा पाऊस बरसला.

ह्यानंतर प्रेक्षकांकडून आलेले प्रश्न प्रतिमा चौगुले आणि अंकिता राऊत यांनी घेतले. यात सरांनी उत्तर दिले, सकारात्मकता म्हणजे प्रत्यक्ष डोळसपणे बघणे. मी स्वतःला विवेकवादी समजतो, अंधश्रद्धेवर विश्वास नाही, मी निसर्गाला देव मानतो आणि माणुसकीला धर्म मानतो हीच माझी सकारात्मकता आहे. त्यानंतर गोडबोले सरांनी मुलांना त्यांची आत्मकथा 'मुसाफिर' व भारतीय अर्थव्यवस्था, निसर्ग, समाज आणि गरिबी यावर आधारित 'अनर्थ' हे पुस्तक वाचायला सुचवले.

पुढचा प्रश्न होता वेळेच्या नियोजनाचा त्यावर सर बोलले मी ठरवून असा काहीच करत नाही. उरात ध्यास असला पाहिजे. स्वतः शिकायला मला आवडते, कायम विद्यार्थी राहणे ह्याला मी प्राधान्य देतो आणि आनंद घेतो. त्यानंतर त्यांनी भारतातील शिक्षणव्यवस्थेच्या बिकट परिस्थितीवर भाष्य केले. आपली शिक्षणसंस्था इतर देशाच्या तुलनेत किती ढासळलेली आहे, ह्या बद्दल त्यांनी हळहळ व्यक्त केली. मातृभाषेत शिक्षण घेणे किती महत्वाचे आहे आणि त्यासोबत आजच्या युगात इंग्रजीचे घडे घेणे हे देखील महत्त्वाचे आहे, असे ते म्हणाले. साक्षी घाडगे हिने सरांनी विद्यार्थ्यांना मोलाचे मार्गदर्शन केल्याबद्दल धन्यवाद मानले.

मुलाखतीच्या कार्यक्रमानंतर माजी विद्यार्थ्यांचा गुणगौरव सोहळा पार पडला. या सर्व माजी विद्यार्थ्यांची ओळख संकेतने करून दिली. फाउंडेशनच्या परिवारात नवीन आलेल्या विद्यार्थ्यांचे स्वागत करण्यात आले. त्यांची ओळख करून देण्याचे काम अपेक्षा आणि शुभम ह्यांनी केले. गुरुजी एज्युकेशन फाउंडेशनची मुलं फक्त शैक्षणिक क्षेत्रात न्हवे तर गायन, चित्रकला, संगीत, कविता लेखन, खेळ इत्यादी मध्ये देखील अव्वल आहेत, हे दर्शवणारा कार्यक्रम देखील पार पडला. प्राजक्ता हिने ह्या कार्यक्रमाच्या सूत्रसंचालनाचे कार्य सांभाळले. ह्या कार्यक्रमात प्रियांका, प्राची आणि गायत्री यांचे सुमधुर गाणे झाले, निखिल ने गिटारवर गायत्री मंत्र वाजवून दाखवला, छोट्या समीक्षा आणि स्नेहाने कविता तालात गाऊन दाखवली, कल्याणने त्याचे कराटे कौशल्य दाखवले, श्रेयाने स्वलिखित कविता वाचून दाखवली, छोट्या प्रतीक खोतने टाकाऊ पासून टिकावू वस्तू कशा बनवायच्या हे दाखवले. प्रियंका आणि मी काढलेल्या चित्रांचे प्रदर्शन करण्यात आले.

संपूर्ण सोहळ्याची सांगता तनिष्का करंजकर हिने मन प्रसन्न करणाऱ्या पसायदानाने केली. उपस्थित सर्वांचे आभार अंकिता राऊत हिने मानले. ह्या ऑनलाईन कार्यक्रमात तंत्रज्ञान विभाग संभळणाऱ्या शुभम आणि आदित्यने उत्तम कामगिरी बजावली. कार्यक्रमात काम करणाऱ्या सर्व टीमचे रुचिका गरडे हिने आभार मानले. रुचिका आणि प्रतिभा हिने संपूर्ण कार्यक्रमाच्या सूत्रसंचालनाची जबाबदारी उत्तमरित्या पार पडली. ह्या संपूर्ण सोहळ्याचे आयोजन, आखणी हर्षिता मॅडम आणि आदित्य ह्या दोघांनी केली होती.

THE SPIRIT OF GIVING

PRATIKSHA GHARAT

GIRISH JOSHI

PRATI KSHA GHARAT, a GEF student since 2008, is currently working as a project engineer at Avatar Pharmatech grow Pvt. Ltd. She helped Gayatri Chingunde 's cousin, Shraddha, who is a Jalna Bpharm student. Shraddha was keen to do an internship but was not finding any. Pratiksha helped her to get one. at Sun Pharma, Dadra. However, for Shraddha problems weren 't over yet, convincing her parents to live alone in a totally different city was difficult, but her determination and Pratiksha Gharat 's compassion made it possible. This was an example of how the GEF family works, here is what a team can do. Each of us owes someone, we all benefit by reaching out and helping each other in times of need.

GIRISH JOSHI, currently an alumni of GEF, helped Renuka Kulkarni, in getting a job for her. Renuka is the only working person in her family and the entire family is dependent on her income. She had lost her job. After learning about this from Pradeep Waychal Sir, he immediately used his contacts and scheduled an interview for her at YCS Technology. With her qualification she cracked the job and got an offer letter. Girish was very happy for her and that he could help someone. This moved him and reminded him of his own college situation. 7 years ago, Girish's father passed leaving him in a very delicate economical condition as his family was surviving on a tea stall sometimes having to even server tea to a nearby Police Station. In such hard times, he fortunately came in contact with GEF through Kalyan Garde, another GEF Alumni, and got help and support for his college fees from GEF which helped him succeed. As GEF helped Girish during his tough time, Girish helped Renuka in getting a job. We must be grateful towards others who helped us and always strive to help society in any way possible.
